Hello All,

I focused on the response to comments and added my comment on to Erik, Peter, and Jenny's comments. I think this is looking good. I am an editor at heart – so I did make a number of editorial suggestions. Thanks for all of your great work!

Take care,

Teresa

It looks very good. I added some comments to Erik's and Peter's. It's mainly editorial stuff and then some suggestions to conclude in the rationale what the deficiencies are and examples of how they might get to an approvable program. Response to comments looks strong, and I added some edits there, too.

Alan and Allison,

I've added my comments and suggestions to Peter's.

Well done and best of luck in this next phase!

Alan and Allison –

Overall these looked great. I have attached these documents with some minor suggestions. I have only one minor suggestion on the rationale document and a few minor suggestions for the response to comments document.

Peter, Jenny, Erik and Teresa,

Attached are two documents; the final draft rationale for NOAA/EPA's CZARA decision regarding the Forestry – Riparian issue; and NOAA/EPA's draft responses to the public comments received on this subject.

The draft rationale, which has been reviewed and generally accepted by our management team, provides the foundation for some of the draft responses. The draft responses to comments on Forestry –Riparian are covered in IX. Forestry, Sections B-G. Section A covers General forestry comments and responses. If you have time, we would appreciate your review and comments on the draft responses for Sections B-G as well as Section A. It would be great if I could get your comments within the next week or so. Please let me know if this is problematic.

Regarding the other forestry issues; the landslides rationale is getting close to being completed (hopefully within the next couple of days) and the roads rationale is being revised. It should be done sometime next week. I suspect the pesticides rationale will be done within the next couple of days as well.

Please feel free to give me a call if you have any questions.

Thanks for all of your help.

Alan
